

## Student Evaluation of Instructor Fall Semester 2008

College of Arts and Sciences

Student Evaluation of Instructor

**Course:** 84572 CHEM 6600 BIOCHEMISTRY I  
**Instructor:** Aimin Liu  
**Distribution:** Online  
**Enrollment:** 29  
**Respondents:** 28  
**Percentage:** 96.6%

I. Indicate your current degree program:	Total %
Undergraduate	0 0
Master's	19 73.1
Doctoral	7 26.9
Postbaccalaureate	0 0

II. Indicate what % of your program is completed:	Total %
Below 20%	6 23.1
21-40%	3 11.5
41-60%	4 15.4
61-80%	1 3.8
Above 80%	12 46.2

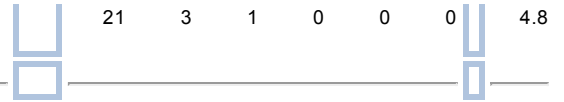

III. This course is:	Total %
Required	23 92.0
Required, but a choice among several	2 8.0
An elective	0 0

IV. The grade I expect to earn in this course is:	Total %
A	17 65.4
B	9 34.6
C	0 0
D	0 0
F	0 0
N/A	0 0

V. My grade point average (GPA) at G.S.U. is about:	Total %
3.33-4.0	19 76.0
3.01-3.32	5 20.0
2.74-3.0	1 4.0
2.47-2.73	0 0
Below 2.47	0 0

17. Considering both the limitations and possibilities of the subject matter and course, how would you rate the overall teaching effectiveness of the instructor?

#### Comment Area

1. Dr. Liu's section of Biochem was more effective in teaching than Dr. Gadda's. Required information was made known and well emphasized and taught accordingly well. If I could take a biochem course with one professor (not a cotaught course) it would be with Dr. Liu and not Dr. Gadda.
2. Wonderful professor. Glad Dr. Liu was able to assist Dr. Gadda with this course. I look forward to Biochemistry II with Dr. Liu and Dr. Yang.
3. I enjoyed learning in this class!!! Thanks a lot!! It was awesome!!
4. The teacher is hard working!
5. Materials covered for test 3 should be broken up into two separate exams. Too much information to digest altogether and figure out how the pathways relate to one another. Professor actually cares if we learn, wants to be fair in grading.
6. Dr. Liu did an excellent job teaching this course. He was well prepared for every lecture he delivered and related well to students. He inspired me to learn more about Biochemistry. I had a very tough time passing Biochemistry in my undergraduate degree. I earned an A in this course. Dr. Liu's teaching style had a lot to do with me earning an A in this course. Dr. Liu did an excellent job making a class more interactive. I think Dr. Liu will do excellent job for Georgia State University in his future years with the University.
7. Dr. Liu was very enthusiastic and did a great job of explaining complicated concepts. Sometimes I had some trouble understanding him (he admitted there are several words he has trouble with), but he would always encourage students to stop him if anything was unclear, and he did a great job making sure the class met its objectives.
8. Dr. Liu provided a lot of material designed to address different ways of learning and it really helped me out in learning difficult material I had a big problem with the fact that the course was only offered at 5:30pm at night. As this is a graduate class, this time frame is ridiculous and made it very difficult.
9. Dr. Aimin Liu is an excellent teacher. His PPT contains several MVs which is vivid and help us understand the complicated mechanisms of biochemistry well. He has the ability to make most of students active during his class and let them involved in. His exam questions are very interesting, intelligent and unforgettable which contain the most important part of this course. He is responsible to students. Whenever students ask whatever questions he can explain well. In a word, Dr. Liu is a knowledgeable and helpful Professor. I like his teaching very much.
10. Good class. Very smart man, very fair and accurate in tests.
11. very helpful, always had an open door policy, was always willing to help. Very good instructor in the classroom as well. Really listened to the students
12. New to GSU, but doing a wonderful job. Made lectures interesting, was very prepared for each class. His lecture notes obviously took a lot of time to create. Great Prof.
